

Making Maths Magic

CREATIVE AND FUN AFTER SCHOOL MATHS CLUBS

Class recordings

Video recordings of live online classes

Making Maths Magic makes recordings of all live classes for safety and quality assurance.

Teachers can view class recordings via the Making Maths Magic platform in order to improve their classes.

While parents are welcome to take pictures and videos depicting **their own learners** participating in class, it is never okay capture or share other learners' faces or names.

Making Maths Magic uses recordings to provide coaching to teachers, for customer support, and for compliance purposes. We take learners' and teachers' privacy seriously and never share class recordings (or any of our community members' personally identifying information) outside Making Maths Magic for marketing purposes or for *any other reason* without your explicit consent. Making Maths Magic retains videos for one year, after which they are automatically and permanently deleted.
